

Stellar is an employee-owned and operated manufacturer of top-quality work trucks and trailers, as well as service truck and van accessories. Founded in 1990 in Garner, Iowa, Stellar has since expanded operations to multiple U.S. locations. Through an innovative, growing product line and an expanding distribution network, Stellar has gained an international presence and become the No. 1 productivity choice in many markets.

Knapheide is the nation's most capable provider of truck bodies, equipment and accessories, and vehicle upfitting in the United States. Whether you need a single vehicle or an entire fleet, Knapheide and its upfit partners have the insight, experience and resources to outfit your operation for greater success.

Bedrock Truck Beds symbolize American quality, Texas pride, and the integrity of a small-town legacy. Not a single detail was overlooked in developing truck beds that exceed the expectations of our customers. Bedrock has led innovation in the truck bed industry by inventing simple yet revolutionary solutions such as our patented adjustable headache racks, plug and play wiring adapters, pre-assembled installation kits, and the QUAD bed.

We are part of the Illinois Tool Works (ITW) family of welding brands: Miller, Hobart, and Bernard. Individually, each brand is a powerhouse and as a group, there is nothing we can't accomplish in the world of welding. From small shops to global manufacturers, no matter your welding challenge, we have the solutions to fit any need imaginable.

Woodbine Manufacturing Company is the developer of Tommy Gate, a premier brand of private, commercial, and industrial hydraulic lifts. Established in Woodbine, Iowa in 1965 by Delbert "Bus" Brown, Tommy Gate has experienced steady growth in each of the past five decades and is widely acknowledged as a leader in the industry.
